### We Walk in honor of - Barb Bruns

In July of 2015, Barb was forced to quit her job at 3M in Hutchinson after 27 years. She was unable to perform her normal work duties although she still didn't have a diagnosis from her doctors.

On December 9, 2015 Barb's life changed! She was diagnosed with early onset Alzheimer's disease. Barb continues to live at home with her husband and advocates to find a cure for Alzheimer's Disease. Barb is fortunate to have so many family members and friends close by. Making memories has become Barb's top priority!
